## Oil&Gas Portal: Ideas and Innovations

Oil and Gas Technology News

## [Petroleum Training](#)

### About Us

Oil & Gas Portal is a Serintel initiative aiming to diffuse the knowledge of oil and gas sector issues, technologies and innovations between:

- The companies operating in Oil & Gas sector
- The academic institutions
- The young people looking for opportunities to improve specialization or to work in Oil & Gas sector
- The Oil & Gas Research Centers

The project is carried on by Serintel in cooperation with Academic Institutions and International Bodies operating in Oil & Gas sector.

Serintel is an independent Service Company operating on an international scale with expertise in Oil & Gas sector (upstream and downstream) technology transfer.
