Refining Operations

Downstream | Refining Operations

[ww-shortcode-divider]**Separation Processes**

- Desalting
- Atmospheric Distillation (Topping)
- Vacuum Distillation
- Solvent Deasphalting

Finishing Processes

- Hydrotreatment
- Hydrofinishing

Upgrading Processes

- Catalytic Reforming
- Isomerization
- Alkylation

Conversion Processes

- Thermal conversion processes
  - Thermal cracking
  - Visbreaking
  - Coking
- Catalytic conversion processes
  - Catalytic cracking
  - Hydrocracking

Blending Operations *To see process descriptions click on the bold listed subjects.*[ww-shortcode-divider divider_color=”#dd9933″]
